

DAVIS CEMETERY DISTRICT

REQUEST FOR PROPOSALS

Corp Yard Asphalt Resealing or Replacement

Proposal Due Date: October 15, 2026

Project Location: Davis Cemetery District, 820 Pole Line Road, Davis, CA 95618

Introduction

The Davis Cemetery District (District) is requesting proposals from qualified contractors to assess and provide recommendations for the repair and restoration of the asphalt surfaces within the District's Corp Yard.

The existing asphalt is in need of maintenance and repairs to prepare the area for the upcoming winter season. The District is seeking proposals for either resealing and repairing the existing asphalt or removing and replacing the asphalt, depending on the condition of the existing surface and the contractor's professional recommendation.

Scope of Work

Interested contractors are asked to evaluate the existing asphalt and provide a proposal that addresses the following:

Option 1: Asphalt Resealing and Repairs

- Inspect the existing asphalt surface and identify areas requiring repair.
- Repair cracks, potholes, deteriorated sections, and other damaged areas as appropriate.
- Address areas where the asphalt surface has deteriorated or underlying material may be exposed.
- Apply an appropriate asphalt sealcoat to the existing surface.
- Identify any areas requiring additional work beyond standard resealing.
-

Option 2: Asphalt Removal and Replacement

- Remove and properly dispose of the existing asphalt.
- Evaluate and prepare the underlying base as necessary.
- Make any necessary base repairs or improvements.
- Install new asphalt appropriate for the intended use of the Corp Yard.
- Compact and finish the new asphalt to provide a durable, even surface.
- Address drainage and grading concerns as necessary to minimize standing water.

Contractors may submit a proposal for either or both options. If a contractor recommends a combination of repairs and replacement, that alternative may also be included.

Site Inspection

Contractors are encouraged to visit the site and inspect the Corp Yard before submitting a proposal. The District can provide access to the project area by appointment. Proposals should reflect the existing site conditions and any work necessary to provide a durable, functional surface suitable for the District's operational needs.

Proposal Requirements

1. Company Information
2. Recommended Approach
3. Cost Estimate
4. Project Timeline
5. Materials and Specifications
6. Warranty
7. References

Any assumptions, exclusions, or additional costs that may arise during the project should be clearly identified in the proposal.

Proposal Evaluation

The District will review proposals based on the following considerations:

- Overall cost and value.
- Appropriateness of the proposed approach.
- Quality and durability of materials and workmanship.
- Contractor experience and references.
- Proposed project schedule.
- Warranty and maintenance considerations.

The District reserves the right to request additional information, seek clarification, negotiate project details, or reject any or all proposals.

Submission Instructions

Proposals must be received no later than October 15, 2026.

Please submit proposals electronically to:

Jessica Smithers
District Manager
Davis Cemetery District
Email: jess@daviscemetery.org

Questions regarding the project or requests to schedule a site visit may be directed to the District Manager using the contact information above.

Additional Information

The District intends to select a contractor based on the proposal that best meets its project needs, budget, and operational requirements. The District may request revisions or additional information before making a final selection. The selected contractor will be expected to coordinate with District staff to minimize disruption to cemetery operations and maintain a safe work area throughout the project.

We appreciate your interest in working with the Davis Cemetery District and look forward to reviewing your proposal.
